It often seems as though black and white Americans live in separate worlds of experience and understanding. Unless we can bridge those gaps, it will be hard for us to work together to build a better Madison, a better country, and a better world.

This course is a complement to the other great programs that address racism in our community. This is a great way to become involved as an ally in Justified Anger's efforts to reduce racial disparities and bring about healing. This course is also a meaningful entry point for whatever cross-cultural work you want to do to make Madison a better place.

SPONSORSHIP ATTENDANCE EXPECTATIONS INCLUDES 80% minimum of all virtual classes AND discussion.
